

PLEASE DONATE TO A GOOD CAUSE

AVALON FOUNDATION

**POLISH NATIONAL COURT REGISTER:
0000270809**

My name is Anna Świrk, I'm 28 years old and two years ago a disease turned my life upside down. I've been suffering from an acute gut motility disorder which has caused a complete failure of my gastrointestinal tract, meaning that i cannot eat or drink anything. I live thanks to total parenteral nutrition (TPN) which feeds me directly into my veins. Even though my TPN treatment can be home-based, it feels as if I have never left the hospital, as TPN takes

16 to 18 hours each day. In order to gain the nutrients i need to live, I am bed-bound for most of the day. Unfortunately, parenteral feeding is not entirely safe, is only a short term solution, and is likely to affect my health in the future. Life-threatening diseases related to TPN include severe sepsis and venous thromboembolism. TPN eventually leads to liver and kidney failure, leaving no other option but an organ transplant.

I've been hospitalized and examined many times. I have contacted several Polish specialists. Unfortunately, Polish doctors have only been able to provide limited help. All known diagnosis and treatment possibilities in Poland have been exhausted. Even though it's been extremely difficult for me to fight the disease, I refuse to give up, and this is why i am currently seeking specialised treatment outside of Poland. I've been in touch with one of the best clinics in the world that carries out research and treats various gut-motility disorders. The clinic is based in the United States. Unfortunately, the estimated costs of possible treatment in the US are extremely high and I cannot afford it on my own.

If you would like to help me gain my health and normal life back, please provide a donation. Any contributions would be greatly appreciated. Thank you.

By providing a donation to the Avalon Foundation with “Świrk, 6778” in the payment description/reference you will support me in my recovery.
